

REGENCY CENTER TABLE CIRCA 1820

An exceptional early 19th century English Regency Center Table, the circular tilt top veneered in magnificently figured rosewood with lovely original patina, bordered by intricate scrolling brass inlay, zebrawood banding and gadroon edge. The turned, ringed and fluted tapering column is set on a tripartite brass-inlaid platform base with cast gilt metal rolled feet featuring quarter palmette brackets and original castors.

Circa 1820.
